EXAMINER'S AMENDMENT

An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Status of the Claims

Claims 1-17 and 19 were rejected under 35 U.S.C. § 112, second paragraph, as being indefinite in the Office Action mailed on August 11, 2006. The Examiner's Amendment to the claims presented below overcomes each of the outstanding rejections, and places the claims in condition for allowance.

Amendments to the Claims

Authorization for this Examiner's Amendment was given in a telephone interview with Ms. MaryDilys Anderson on August 8, 2006.

The application has been amended as follows:

In claim 1, line 2 of step (d), after the phrase "from cells that do not so bind," insert the phrase "wherein a potential binding domain that binds the target material is a successful binding domain (SBD),".

In claim 1, line 2 of step (e), after the word "comprising" insert the phrase "an SBD".

In claim 1, line 2 of step (e), delete the phrase "a successful binding domain (SBD) which bound said target".

In claim 2, line 1, after the phrase "one or more of said", insert the word "potential".

Art Unit: 1639

In claim 2, toward the end of line 2 and carrying over to line 3, delete the phrase “a naturally occurring” and insert the term “an” in place thereof.

In claim 3, line 1, after the term “said” insert the term “potential”.

In claim 3, toward the end of line 2 and carrying over to line 3, delete the phrase “a naturally occurring” and insert the term “an” in place thereof.

In claim 4, line 1, after the term “said” insert the term “potential”.

Claims 5-7 are canceled.

In claim 8, line 1, after the term “said” insert the term “potential”.

In claim 8, line 1, after the term “binding” insert the term “protein”.

In claim 8, line 1, before the term “comprises” delete the term “antibody”.

In claim 8, line 2, after the term “naturally occurring” delete the “protein” and insert the term “antibody” in place thereof.

Claim 9 is canceled.

In claim 10, line 2, delete the phrase “a naturally occurring” and insert the term “an” in place thereof.

In claim 11, line 2, delete the phrase “a naturally occurring” and insert the term “an” in place thereof.

Art Unit: 1639

In claim 12, line 2, delete the phrase “a naturally occurring” and insert the term “an” in place thereof.

In claim 13, line 2, delete the phrase “a naturally, occurring” and insert the term “an” in place thereof.

In claim 16, line 2, after the phrase “plurality of different” insert the phrase “potential binding”.

Cancel claim 17.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: Applicants claimed invention is the first to provide a population of eukaryotic cells with a nucleic that encodes a potential binding domain, in that the potential binding domain is derived from a gene obtained by random mutagenesis of a limited number of predetermined codons, and is fused to a genetic element which causes the resulting chimeric expression product to be displayed on the outer surface of the eukaryotic cell. The closest prior art, Reske (Reske *et al.*, *Eur. J. Immunol.* 17:909-914 (1987)), neither explicitly discloses or fairly suggest in combination with any other reference Applicants' claimed invention. Although Reske provides cells displaying certain antigens, Reske does not meet the limitations of Applicants' population of variegated cells, nor the potential binding domain.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Conclusions

Claims 1-4, 8, 10-16 and 19 are allowed.
